

## YZ6H Ophthalmoscope (LED Bulb)

The product adopts the advanced LED bulb which is durable enough (with designed service life of 100,000 hours) and has uniform light spot.

### Features

- ◆ LED cold light source with the designed service life of 100,000 hours.
- ◆ Low heat benefits from the cold light source.
- ◆ Bulb maintains the 3200K for long time to provide soft and sunlight like illumination.
- ◆ UV radiation is cut to fully protect patient's eye.
- ◆ Provide uniform illumination spot and sharp fundus image.
- ◆ Soft rubber is used around the eyehole to protect eyes and stabilize the ophthalmoscope.

### Specifications

|                       |   |
|-----------------------|---|
| Illumination Type     | Large Spot, Small Spot, Slit, Net, Red Free   |
| Diopter Compensation  | 0, $\pm 1D$ , $\pm 2D$ , $\pm 3D$ , $\pm 4D$ , $\pm 5D$ , $\pm 6D$ , $\pm 8D$ , $\pm 10D$ , $\pm 12D$ , $\pm 16D$ , $\pm 20D$ , $-25D$ , $-35D$ |
| Light Source          | 3.5V/1W LED Bulb  |
| Color Rendering Index | $\geq 90\%$   |
| Illuminance           | $\geq 80$ Lx  |
| Input Voltage         | AC220V $\pm 10\%$ , 50Hz $\pm 1$ Hz   |
